JUMBO EX. MILL DOES FINE WORK

by Six Hundred Tons of Ore Monthly.

COPPER CONTENT LESS

big stope above the second or \$00-foot level, where a large tonnage of good milling ore is exposed, the output will be doubled with the addition of two drills, so easily does the ore break and so effective in it are the air drills.

At the Bonnie Clare mill fifteen stamps are now dropping on ore from the Jumbo Extension mine and ore is now being treated at the rate of about 2600 tons monthly. At first it was thought by the company's engineers that the capacity of the plant would not exceed 2000 tons monthly, owing to the high copper and silver content of the ore and the limited space for concentrators. The increased capacity and improved metallic recovery are attributed to a falling off in the copper content of the ore mined recently.

Free From Baser Metals.

One of the stopes on the second level, opened in an ore bedy that is now exposed on the third level, has produced ore that is comparatively free from the baser metals and if it is found that there is a large tonnage of this ore in the mine the company will be enabled to make use to good advantage of the cyanide plant in connection with the miland which is in good working order. This would effect a higher recovery of gold and would materially increase the company's monthly earnings.

Conditions in the mine are better than at any time in the past and Superintendent Walter Norris reports some important developments during the past week or two. The new stope that is being started at the top of the 203-B raise, above the second level, is making a good showing of medium-grade mill ore and the raise has supplied a large tonnage of 510 ore, which is an excellent grade for the mill. Additional air drills in this new stope will double the output from this point.

The main stope on the second level.

point.

The main stope on the second level, known as the 203-A stope, is the largest in the mine, being fourteen feet from foot to hanging wall at right angles to the vein, and the average of ore broken from this stope, from car grab samples averaged for the past three months, has been \$5.15 per ton. This is an excellent product to grade with the ore from the other stopes, which is of a considerably better average grade.

Unexpected Ores.

Unexpected Ores.

Above the second level the 202-E raise has been one of the most important derection one of the most important derections of the most important derections of the most important derections of the desired of the desi

VELVET IS LATEST CAMP OF NEVADA

Velvet is the latest mining camp of Nevada, and from all reports there is outle a rust, on into this new section. Velvet is located about sixteen siles southwest of Lovelock. The principal property there, known as the Worzwick, has been located for five years. The ore carries gold mainly, with some silver values, and assays are given that run very high in the yellow metal.

DEAD HORSE GROUP OWNED BY UTAHNS

Secured by Morrison and Associates.

The Dead Horse group of claims at New Equipment to Increase man, Garfield Bardemiss and Sam Bach- in October, 1912. This will call for the man located the claims about two years payment in April of the handsome sum trading last month was 512,571 shares of

way.

Cash was paid in full as a consideration for the transfer, but for reasons not necessary to state Mr. Morrison does not care to make public this part of the

transaction.

Mr. Morrison is familiar with the mining conditions in all the camps of the west and has had considerable experience in bandling mining properties, having bought and sold properties that have been great producers and which are classed at this time away up in the millions.

classed at this time away up in the millions.

The company expects to ship ore from Curry, which is only twenty-five miles from the property, but since the dirt roads from Wells to the mines are as level as a floor and in good condition, supplies will be purchased here and freighted to the scene of operations.

—Wells Herald.

FINANCIAL REPORT OF FLORENCE-GOLDFIELD

The Florence-Goldfield Mining com-

The Florence-Goldfield Mining company, in conforming with the laws of Nevada, has issued the following annual statement:

Debit—

December 21, 1911, to cash on hand, \$44,098.08.

To assessments collected during 1912, none.

To revenue from buildon, ore, etc., \$52,650.37.

To interest, \$2,109.74.

To insurance received account burned mill, \$83,591.35.

To additions and deductions to property accounts in 1912, \$2,817.32.

To miscellaneous items, \$148.37.

To amount written off to profit and loss during 1912, \$1,304.51.

Total, \$187,719.84.

Credit—

Expenses in year 1912, \$125,402.55.

The better informed authorities do not believe that there will be any change made in the dividend rate of the Anaconda company when the directors convene on March 25 for dividend action. The present rate of \$3 a share per annum is safely being accumulated on the present copper market, and it is not expected that a decrease will be even contemplated unless the metal manages to strike a lower average than it has during the past decade.

Ore and Bullion,

The ore and builton report for Friday, posted by McCornick & Co., was as follows: Ore received, 118,900; builton shipped, \$75,000; total, \$93,000.

Special to The Tribune.

EUREKA, Feb. 28.—Following are the ore shipments in carloads for the week from the Tintle district:

shipped, \$75,000; total, \$93,000.

A Cold, La Grippe, Then Pneumonia, is too often the fatal sequence. La is too often the fatal sequence. La Grippe coughs hang on, weaken the system, and lower the vital resistance.

WE ARE NEVER UNDERSOLD

Druehl & Franken

Successors to Smith Drug Co. THE BUSY CORNER; Also the OLD STAND 271 SO. MAIN ST. **Progressive Druggists**

EXPANSION

To keep abreast of a growing business, to simplify matters for you, to provide a more efficient service, to give you the best merchandise for the least money—these have been our

aim. How well we have succeeded is evidenced by the tremendous business we are now enjoy. ing. When we opened our beautiful new store at "The Busy Corner," we thought our quarters as large as we would ever need, but already we are seeking additional room to store the great variety of Quality merchandise we carry in stock. You will find many interesting bargains in the following list:

'CEDAR POLISH O'CEDAR MOPS

The Varnish Food.

The only polish that does not gum.
It restores the varnish to its original brilliancy. 25 and 56 cents bottle.
Mops, \$1.50.
